Standard Operating Procedure

HORTI-KLOR™

Heavy-Duty Chlorinated Cleaner

DIRECTIONS FOR USE

This product is a concentrate and must be diluted before using. See table below.

For detailed instructions on how to use **HORTI-KLOR** in your particular application, contact your Representative.

Detailed cleaning procedures can also be obtained by logging onto our website, www.pace49.com.

Application: fl. oz. **HORTI-KLOR**/gallon water

Heavy-Duty Cleaning..... 5.0 to 7.5 fl. oz.

Medium-Duty Cleaning..... 2.5 to 5.0 fl. oz.

Light-Duty Cleaning..... 1.0 to 2.5 fl. oz.

HORTI-KLOR is a specifically formulated active chlorine detergent designed to help meet the highest food-safety standards.

HORTI-KLOR contributes 450 ppm of active chlorine when used at a rate of 2.5 fl. oz. per gallon of water.

A composite of detergents and emulsifiers, **HORTI-KLOR** dislodges stubborn material such as algae, oily residues and dirt. The emulsion will not break down during rinsing, thus preventing oily residue from returning to the contact surface.

Application Methods

HORTI-KLOR produces a high foam when used with a foam applicator. Foam is an effective way to clean heavily soiled areas providing a residual soaking action on both vertical and horizontal surfaces.

Pressure Sprayers

High and low pressure sprayers are recommended for easy removal of debris and rinsing. Foam applicator attachments give excellent cleaning results with **HORTI-KLOR**.

Dip Tanks

Small items such as totes and hand tools may be effectively cleaned by immersing them in a tank filled with diluted **HORTI-KLOR**. This method provides extended contact time for removing stubborn deposits.

*Note: Aluminum, copper and other soft metals may be cleaned with **HORTI-KLOR** but use-solution must be rinsed shortly after application to prevent any metal etching.*

Horticultural and Agricultural Applications:

HORTI-KLOR may be used in Greenhouses, Nurseries, Interiorscapes, Botanical Gardens, Atrium's, Packing Houses, Commercial/Retail Florists, Bouquet Manufacturers and by Vegetable Growers.

Areas of use include: storage sheds, packing lines, coolers, trucks, pots, plug trays, bins, ground cover, shade cloth, benches, transportation, trucking, disposal areas, lunchrooms, washrooms, beds, structures, packing sheds, picking equipment, food-handling equipment, totes, and equipment including tools and cutters.

Livestock Applications:

HORTI-KLOR has many applications on Poultry, Pig, Cattle and Dairy Farms.

Areas of use include: animal pens, barns, parlors, drinkers, cages, receiving areas, egg rooms, kill floors, storage areas, packing equipment, processing areas and for general cleaning.

HORTI-KLOR is safe to use on stainless steel, aluminum, iron, concrete, plastic, poly and glass, *if rinsed prior to drying.*

ACBD stands for **Always Clean Before Disinfecting** and represents a system which will enable you to comply with all Food Safety and HACCP requirements. **HORTI-KLOR** is one part of the system. Contact your representative for advice on how to implement the full **ACBD System**®
