Standard Operating Procedure

STRIP-IT PRO™

Heavy-Duty Acid Cleaner

DIRECTIONS FOR USE

This product is a concentrate and must be diluted before using. See table below.

For detailed instructions on how to use **STRIP-IT PRO** in your particular application, contact your Representative.

Detailed cleaning procedures can also be obtained by logging onto our website, www.pace49.com.

| Application: | fl.oz. STRIP-IT PRO / gallon water |
|----------------------------|--|
| Heavy-Duty Cleaning..... | 8to12fl. oz. (e.g., sunblock removal) |
| Medium-Duty Cleaning | 4 to 8 fl. oz. (e.g., interior glass and plastic) |
| Light-Duty Cleaning | 1.5 to 4 fl. oz. (e.g., irrigation lines and storage tanks) |

Horticultural Applications:

STRIP-IT PRO may be used in Greenhouses, Nurseries, Atriums, Botanical Gardens, Packing Houses and by Bouquet Manufacturers.

Areas of use: interior and exterior greenhouse structures including glass polyethylene and polycarbonate, storage sheds, pots, plug trays, ground cover, shade cloth, benches, cooling pads, irrigation lines, food-handling equipment and sunblock removal.

Agricultural Applications:

STRIP-IT PRO may be used on Vegetable and Fruit Farms.

STRIP-IT PRO has an excellent record as a pre-cleaner for potato storage areas, interior of storage barns, irrigation systems, field equipment and food transportation equipment.

Livestock Applications:

STRIP-IT PRO has many applications on Poultry, Pig, Cattle and Dairy Farms.

Areas of use include: animal pens, barns, parlors, drinkers, cages, receiving areas, egg rooms, kill floors, storage areas, packing equipment, processing areas and general cleaning.

STRIP-IT PRO is a unique blend of acids, surfactants and wetting agents which together produce maximum cleaning results with no need for mechanical scrubbing.

STRIP-IT PRO removes stubborn mineral deposits such as calcium, magnesium and iron but also attacks organic buildup such as algae, weeds and hard-packed soils.

The low-odor characteristics of **STRIP-IT PRO** make for easier handling and application.

Do not allow **STRIP-IT PRO** to contact growing plants or areas where bulbs are to be planted.

Application Methods:

STRIP-IT PRO may be applied by pressure washer, backpack sprayer, foam applicator or brush. High and low pressure sprayers are recommended for easy removal of debris and rinsing.

STRIP-IT PRO produces a high foam when used with a foam applicator. Foam is an effective way to clean heavily soiled areas. Foam can be beneficial due to the residual soaking action on both vertical and horizontal surfaces. This soaking action contributes to thorough cleaning results.

ACBD stands for **Always Clean Before Disinfecting** and represents a system which will enable you to comply with all Food Safety and HACCP requirements. **STRIP-IT PRO** is one part of the system. Contact your representative for advice on how to implement the full **ACBD System**®
