# STRIP-IT PRO™

## HEAVY-DUTY ACID-BASED DETERGENT CLEANER

**STRIP-IT PRO™** is a powerful combination of cleaning and wetting agents that effectively removes whitewash coatings, algae, and dirt and mineral deposits (including calcium) due to hard water issues. **STRIP-IT PRO™** safely removes all common soils found in and around greenhouses and grower structures during crop rotation. Unlike other cleaning products, **STRIP-IT PRO™** will not harm the greenhouse structure.

**Safely removes all common soils found in and around greenhouse structures during crop rotation. Great for cleaning spray equipment and injectors to maintain accuracy and longevity.**

**STRIP-IT PRO™**'s foaming action intensifies the scrubbing action and helps dislodge compacted soils for easy removal with a high-pressure rinse.

- **Dissolves** biofilm, mineral build-up and algae and reduces to a foam for easy removal- NO CLOGGING CHUNKS!
- **Penetrates** soiled surface so debris is effectively and easily removed.
- **Attacks organic build up** at a pH of 2.5 removing annoyances such as algae, weeds, fungus gnats and shore flies.

Cool Pad Cleaning

**Pace 49 ACBD 3-Step Sanitation Program – Use at end of season and during crop rotation.**

**PACE 49 ACBD** Sanitation Program is to *Always Clean Before Disinfecting*.

**STRIP-IT PRO™** will eliminate the environment for over-wintering pest such as fungus gnats, insects, algae, and diseases. Following with **KleenGrow™** will provide up to 30 days residual algae and disease control.

No clogging-Reduces minerals to a foam

1. Detergent Clean - **STRIP-IT PRO™**
2. Rinse – remove debris and dirt
3. Disinfect - **KleenGrow™**

### Safe and Effective

**Safe** to use on glass, plastic, poly, aluminum, corrugated plastic, wood, concrete shade and groundcover cloth and in *cool pads and irrigation lines*. **ALWAYS** rinse the cleaned surfaces before the product dries for optimum performance.

**No Harmful fumes** and biodegrades quickly so use under benches or on walkway throughout the growing season.

Efficacy of KleenGrow and Strip-it for PepMV Control on Cucumbers
